1. What is MFA?

Multi-factor authentication (MFA) is one of the most effective ways to protect your valuable information and accounts against unauthorised access.

MFA requires users to enter both their password and an additional form of identification. For the WAAMS Portal, you will be able to choose between verifying using an Authenticator app (e.g. Microsoft Authenticator) or entering a code sent to your registered email address.

MFA only changes the way you log in – the way you use the WAAMS and TAA Portals will be unchanged.

2. How-to Guide

- 2.1 How to create an account
 - 1. Navigate to https://waamsportal.dtwd.wa.gov.au/ and click Sign in with WAAMS MFA button.

Note: If you do not have a registered WAAMS account yet, please click on Request a Portal Invitation further down below.

2. Enter your registered WAAMS Portal email address, click the 'I'm not robot check box', then click 'Continue'.

WAAMS Sign in				
Please provide the following				
details.				
Email Address I 1				
m not a robot Privacy - Terma 2 Continue				

3. Click 'Send verification code' to receive an email from DTWD with your verification code. This is to confirm the email address is valid. **You will only need to do this once.**

The email will look like this:

Verify your email address	
Thanks for verifying your your email address account!	(
Your code is: 512644	
Sincerely, DTWD - External Services B2C DEV	

4. Enter your code, click 'Verify Code' and then click 'Next' once the email has been verified.

5. Create a new password. Your password needs to be at least 14 characters and contain at least 3 of the following: a lower-case letter, an upper case letter, a number, a special character

Email address		
Your email address		
New Password		
Confirm New Password		

6. Select your preferred multi-factor authentication method. **NOTE:** You will not be able to change this once you create your account.

- 7. If you select Authenticator App, scan the QR code on your mobile to set up your account. Enter your verification code into the WAAMS Portal MFA.
- 8. If you select Email, check your email for the verification code and enter it into the WAAMS Portal MFA.
- 9. If you select SMS, select the correct country code and enter your phone number, click Send Code to proceed.

10. Check your phone for the verification code and enter it into the WAAMS Portal MFA, clicking Verify Code to submit it.

11. You will now be logged in and directed back to WAAMS Portal landing page or TAA Portal landing page, depending on where you started.

2.2 How to log in

1. Navigate to <u>https://waamsportal.dtwd.wa.gov.au/</u> and click the DTWD Direct button.

Sign in with WAAMS MFA. Your first sign in will create your MFA account

11. Your password has now changed.

3 Troubleshooting

2.4 This user was not found in the WAAMS Sitefinity database

If you receive this error message during DTWD Direct sign up:

API00001: The user was not found in the WAAMS Sitefinity database; RequestId: 0HN2QMEK9OCIQ:0000001; Additional Info: No additional info provided.

You need to have a WAAMS Portal account before you can create a DTWD Direct account. Please return to <u>waamsportal.dtwd.wa.gov.au</u> and Request an Account.

4 Frequently Asked Questions

4.1 I already have a WAAMS Portal account, why do I have to create a new account?

Your new account will add multi-factor authentication (MFA). MFA is one of the most effective ways to protect your valuable information and accounts against unauthorised access.

MFA only changes the way you log in – the way you use the WAAMS and TAA Portals will be unchanged.

Your new account will link to your existing WAAMS Portal account, so you will have access to the same information and functionality.

4.2 How do I get assistance?

4.2.1 Technical Issues

If you're encountering an issue with the WAAMS Portal, please contact the RAI team at <u>rai.projects@dtwd.wa.gov.au</u> or call 13 19 54 (Option 3) Monday to Friday, 0900 to 1600.

4.2.2 WAAMS and TAA Process questions

Please refer to the User Guides on the WAAMS Portal home page.

4.2.3 Important Notes

- Once you have successfully registered and logged in using WAAMS MFA, please continue to log in with MFA each time you visit the WAAMS Portal.
- The previous log-in method of Username and Password may not work correctly for you once you begin using MFA.
